

# Connect a Local Cable Diagram

**Show this diagram to your local cable installer.** If connected correctly, your school will be able to broadcast both local cable TV (CATV) content and Channel One programming into your classrooms.

**The CATV signal level:** set according to channels carried, but **never go higher than 7dBmV:**

10 channels: 4dBmV	20 channels: 1dBmV	30 channels: -1dBmV
40 channels: -2dBmV	50 channels: -3dBmV	60 channels: -4dBmV
